***A Knight's Tale***  
**Compare/Contrast Paragraph**

For this assignment, you will present **one paragraph** which compares and contrasts the movie *A Knight's Tale* with historical facts from our studies in Medieval history. The following chart will help you organize the ideas in your paragraph. You will need three supportive details for each argument.

Think on these questions:

What happened in the movie that actually could have happened? What props, dress, dialogue, characters, locations, practices, etc. were presented that existed in the Medieval period?

Then, just the reverse – What could not have existed then? What did the characters do and say that was modern? What props, locations, etc. could not have existed then? What events were just highly unlikely in the Medieval time period?
