

What is Beauty?

Today you will participate in a webquest in search of a definition of “beauty.” The sites you will visit are credible sites. On a separate sheet of paper, keep a log of what you learn about beauty, including quotes you feel are powerful in helping you define the term. Include the citation information you will need for your works cited page. Remember that there are three views of beauty: *cultural*, *scientific*, and *philosophic*. You will be working with a group on one of the views. Your goal is to find a definition of beauty from your assigned viewpoint. Here are the suggested sites, but use any that you feel are credible and valuable for this assignment. Be sure to find quotes from at least 3 different ones that you will use in your definition essay.
