<td>5 (6)</td>
<td>133</td>
<td>97</td>
<td>Lady Macduff, Ross, Son, Messenger, Murderer(s)</td>
<td>Probably the biggest (largest number of lines) scene – but it can’t be split without losing too much effect – choose the son well and appropriately – can have more than one murderer.</td>

Some Important considerations

- Choose groups that are appropriate for the scene – take a look at the lines
- Choose a scene that you think that you can enjoy and approach creatively
- Scenes will be given out on a first come, first serve basic – Thursday at 6:30 am
- Once All scenes have been assigned the teacher may consider letting some select scenes be done by more than one group.
- You must memorize your lines consider this when choosing a scene and your group members
  - When you come to choose a scene you must have a list with all your group members – this must be equal to the number of speaking parts unless you show the teacher a plan for combining and/or dividing lines in order to fit your group (this plan must be specific). You may alternatively list members from other groups who have agreed to play characters who have only a few lines.

1 The number of speaking parts may be increased (or decreased) by giving lines to characters normally shown as nonspeaking or to decrease the number of speaking characters, simply take lines away from a character and give them to someone else… That nonspeaking character can either be onstage or now excluded. Remember, every member of your group MUST have at least one line – you may get students from other groups to perform with you either as nonspeaking characters or as characters with a small number of lines. They will receive extra credit according to the size of their respective role.

2 The number of lines my be decreased through editing and cutting – you must make sure that the scene still makes sense though (see cutting exercise in class)

3 Nonspeaking parts may be given lines by taking them from another character.
